Volvo Genuine I-Shift Transmission Fluid 75W-90

Volvo I-Shift Transmission Fluid 75W-90 (97315, 97319) is a high-performance transmission oil designed for automated manual transmissions and extending drain intervals.

Application:

Can be used in all overdrive I-Shift transmissions and severe applications. In automated manual transmissions in applications considered normal or heavy, the 75W-80 version can also be used.

Key Benefits of I-Shift 75W-90:

- The use of synthetic base oils and high-quality performance additives provide viscosity control and long oil drain capability.
- Provides improved fuel economy and reduces operating temperature.
- Effective oxidation resistance, even under severe conditions.
- Excellent protection against gear and bearing wear and surface fatigue (pitting).
